## Staff Report

Item #: E

---

### **Parks & Recreation Advisory Commission Staff Report**

**DATE:** March 21, 2024  
**TO:** Parks & Recreation Advisory Commission  
**FROM:** Rosalba Ramirez, Deputy Public Works Director

**SUBJECT:**  
Review and approve the Shade Structure at North Park Project

#### **DISCUSSION/BACKGROUND**

The current Capital Improvement Program (CIP) budget includes project PK -0033 Shade Structure at North Park at \$150,000. The shade structures will be the shade sail type to cover sites 1, 3, and 4. The Public Works Department is currently in the process of contracting with a shade sail company to design the shade sails and required posts and foundations. The completed design drawings will be used to advertise the installation of the shade sails. The company has provided a preliminary design for all three sites.

The shade sails and poles have various color options available. The goal would be to choose a color that blends well with the aesthetic of the existing park. Neutral colors such as brown, latte, and green poles would best fit this goal. Samples shade sails with these colors are presented as part of this report.

Staff is requesting PRAC review and approve the preliminary design and color scheme from the options provided.

#### **FISCAL IMPACT**

Is there a Fiscal Impact? Yes

Is it Currently Budgeted? Yes

Where is it Budgeted? PK 0033 Shade Structure at North Park GL account 50-6000-5300

Is it Mandatory or Discretionary? Discretionary

Is there a Staff Resource Impact? Nominal

#### **RECOMMENDATION**

Review and approve the Shade Structure at North Park Project
