**Subject:** [EXTERNAL] Tree Removal for Oak & Vine Project on Yountville Cross

Hi Irene:

Below are comments regarding Tree Removal for the May 14 meeting for the Oak & Vine Project at 1980 Yountville Cross Rd.

The applicant is Proposing Removal of tree #21 & 22.

**The entire trunk of Tree 21 is outside of applicant's property, therefore I do not believe that applicant can unilaterally remove this tree.**

The ZRB directed applicant to provide a recess in their retaining wall design so both of the trees can be saved. The applicant is now stating that the roots will be damaged in doing so, but a big enough recess will be able to avoid the roots. The recess should be sized such that roots are not adversely impacted.

Thank You,

Jerry Glembocki
