The background of the slide features a large, semi-transparent version of the Napa County Seal. The seal is circular and contains a landscape with a sunburst at the top, a river, and a bunch of grapes. The words "NAPA COUNTY" are written around the perimeter of the seal. Above the seal, the text "SINCE 1885" is visible. A red vertical bar is located in the top right corner of the slide.

Technical Rescue Team Drill

This Technical Rescue Team (TRT) drill simulates a weakened structure that is at risk of collapse or that has already partially collapsed. TRT members worked together with a focus on interior and exterior shoring and were able to prevent any further collapse.

New Member at Station 12!

Please welcome the newest Engineer to station 12, Tino Loconte. Tino began his Cal Fire career in 2017, as a seasonal firefighter at Los Posadas station 30. He then transferred to Station 25 in Napa and worked there until 2023, when he promoted to Engineer and transferred to Butte Unit. We are honored to welcome him back to the Unit and consider him a valuable addition to the Yountville Station 12 team.

Traffic Collisions and Road Safety

Napa County Fire Personnel responded to multiple traffic collisions this last quarter. We emphasize the importance of wearing a seatbelt, staying alert and leaving plenty of following distance between you and the car ahead of you.

Safety Message

Driver Safety

With an increase in traffic collisions, it is important to practice safe driving. Some strategies to help keep you safe are:

- Stay alert and anticipate the actions of other drivers
- Keep a safe following distance (3-4 seconds) to give yourself time to react
- Avoid distractions: put your phone down or use hands-free devices for phone calls
- Follow traffic rules. Obey speed limits, stops signs and traffic signals
