DISCUSSION/BACKGROUND

At the May 21, 2024, Town Council meeting, Council approved the 2024-2025 Capital Improvement Plan with MT-3025, the Annual Street Maintenance and Paving Program which includes the rehabilitation of Solano Avenue. This project site was determined through annual pavement condition inspections and the current pavement condition rating of streets.

Rehabilitation for this project will consist of; lowering the existing utility covers, full-depth asphalt repair in failing sections, grinding the existing asphalt, overlaying the street surface with new hot-mix asphalt, and all new traffic markings. The work will occur on the street surface from the lip of the gutter to the lip of the gutter, with no work occurring on the concrete curbs.

The formal bid package was advertised in the construction trade journals and the Town's virtual plan room beginning July 17, 2024, with a 30-day solicitation period. The Town received eight (8) bids that were publicly opened and read aloud on August 15, 2024, at 2:00 pm. The lowest bid received was under the engineer's estimate of \$700,000. The results in order from lowest to highest are as follows:
