TITLE/RECOMMENDATION:

Review and approval of the sculpture titled Cubes and Tubes from artist Richard Starks for placement on the Yountville Arts Walk.

DISCUSSION/BACKGROUND

This sculpture is all steel, consisting of hand-crafted cubes and tubes (which have capped ends). A base plate is provided so it can be securely attached to the ground (preferably a concrete pad). The entire piece is TIG (GNAW) welded by me. The finished piece was sand blasted and then put outside to rust. The rusting process is an ongoing process so the colors and texture will change over time.
