

---

Hi Irene,

I had one other comment for tonight's meeting, this one to do with Trees

The applicant is requesting removal of two trees at the NE of their property, Trees 21 & 22.

---

Tree 21 is not even on the applicant's property and should not be approved for removal as part of this ZRB, I therefore request that removal be denied.

Tree 22 is a Heritage Oak and should also not be removed.

The applicant can move their retaining wall by a short distance into their property to save these two trees. There are currently no structure that would interfere and this would be a great solution to preserve the two beautiful trees.

Thank You,

Jerry Glembocki
