>> To whom it may concern,

>> I live behind and next to 8 Forrester on the park side and have for over 20 years I enjoy living here. I object to the balcony addition for many reasons. First, the structure would impede and obstruct my view to the parks beautiful trees and vineyard landscape which I enjoy very much. Secondly, it would be virtually impossible for me to have any privacy in the backyard or in my living spaces which face that property. It would additionally negatively impact my property value and the parks atmosphere.
>> I respectfully request that you vote no on the addition of this balcony.
>> Thank you.
