

Advocating for smart climate action based on the latest climate science

March 31, 2021

To: Mayor and the Town Council of Yountville

Re: Joint Powers Agreement proposed by the Climate Action Committee

On behalf of Napa Climate NOW!, we ask you to take the earliest opportunity to approve the Joint Powers Agreement proposed by the countywide Climate Action Committee to establish a framework for working on regional climate actions.

This Agreement will benefit all of our communities by providing dedicated staff and resources to access state and federal funding for climate action, work with community organizations and businesses on related projects, and leverage member agency efforts toward climate resiliency.

Approval of the JPA will allow our county to join the ranks of other Bay Area counties that are working on a countywide basis to take meaningful action on climate change.

Thank you,
The Steering Committee of Napa Climate NOW!
